**KAIKŌURA IS ONE OF THE MOST ACCESSIBLE PLACES IN ALL OF NEW ZEALAND TO VIEW KEKENO (NEW ZEALAND FUR SEAL) IN THEIR NATURAL ENVIRONMENT.**

The Kaikōura peninsula juts 5km out to sea and provides a haven for fur seals, penguins, albatross and many other marine wildlife. The 1800m deep underwater Kaikōura canyon sustains one of the most diverse ecosystems in the world.

Seal Kayak Kaikōura provides you with the opportunity to have close up encounters with fur seals and a 100% viewing guarantee alongside expert commentary from our guides on the marine life, and history of Kaikōura.

Our state of the art Hobie pedal kayaks allow tour guests a unique viewing experience, enabling less effort to travel greater distances with no experience required. Hands free kayaks mean photo opportunities galore and you'll be amazed at the amazing Kaikōura mountains as a backdrop.
