Why fly with us?

Kaikoura Helicopters is a division of the GCH Aviation Group, a New Zealand family owned and operated company with over 35 years of aviation experience, operating since 1983.

GCH Aviation is the only company in New Zealand to have received the prestigious Diamond Safety Award for over 30 years of operation without serious accident or injury.

We strive to protect the local communities in which we operate, and that is why we support Project Jonah, a charity that responds to whale strandings around New Zealand.
